The terms of the ETA reflected in the NYISO’s database of grandfathered rights are inconsistent with the terms of the ETA in effect as of _____ [date] (the “Effective Date”).

[Tailor this section to your request, samples provided]

More specifically, as of the Effective Date the GFR Table should show that the number of MWs of transmission pursuant to the ETA is __ MW in the summer and __ MW in the winter, which is less/more than the __ MW in the summer and __ MW in the winter currently shown for the ETA in the GFR Table.

More specifically, as of the Effective Date the GFR Table should show that the ETA termination date is _____ [date], which represents an early termination of the ETA.

More specifically, as of the Effective Date the GFR Table should show that the ETA termination date is _____ [date], which represents an extension of the term of the ETA.

More specifically, as of the Effective Date the GFR Table should show that the point of injection of the ETA is _____ and the point of withdrawal of the ETA is _____, which represents a change in the endpoints of the ETA as currently shown in the GFR Table.

I hereby certify that:

1. the Company and [provide the full name of all other parties to the ETA] are the only signatories to the ETA;
2. I am an employee of the Company and am authorized by the Company to execute this document; and
3. The requested revision as described on the previous page is effective ___[date]___.

I have attached or sent separately the FERC order (or other documentation) evidencing the change to the ETA.
