NYISO Shared Governance
Objectives

- Define Shared Governance
- Understand the Benefits of Participation
- Explain the Shared Governance Structure
- Identify the Governance Members
- Explain the Shared Governance Voting System
- Understand How to Participate
What is Shared Governance?

- The process used by NYISO and stakeholders for making policy decisions that dictate how New York’s electric system and wholesale electricity markets will operate.
Benefits of Participation

- Stakeholders have a greater voice in the operation & evolution of the electricity marketplace
- Transparent, Inclusive, and Collaborative Process
  - Diverse set of viewpoints and ideas are exchanged
  - Goal is a finished product that has consensus from all
Benefits of Participation (Cont.)

- Representatives have voting power in exercising responsibilities that include:
  - Developing and adopting technical guidelines for operation of the bulk power system
  - Designing and planning the market design and NYISO systems
  - Preparing the NYISO’s annual budget
  - Reviewing and recommending candidates for vacancies on the NYISO Board of Directors
Shared Governance Structure

NYISO Board of Directors

- 10-member Board of Directors with experience in energy, environment, finance, academia, technology and communications

NYISO Staff

- NYISO Board members and all employees are independent, with no business, financial, operating or other direct to any market participant or stakeholder

Management Committee

- Market participants stakeholder committee individuals from market sectors: transmission owners, generation owners, other suppliers, end-use consumers, and public power and environment parties
