

A-Code Activity Allocators

A-Code	Description	Service Category
A013	ANP Brookhaven Energy (Reimbursable)	Customer Specific
A025	Virtual Bidding	Energy And Ancillary Services Markets
A037	Class 2001 Cost Allocation	Management Services Type 1
A073	Pre-SAS 70 General Control Validation	Management Services Type 1
A074	2001 SAS 70 Type 1	Management Services Type 1
A095	Regional Transmission Planning Study & PSC Request	System Reliability
A207	Atlantic Energy Project Neptune PJM-LI HVDC (Reimbursable)	Customer Specific
A209	Entergy Indian Point Energy Center (Reimbursable)	Customer Specific
A212	2002 New York Area Transmission Review	System Reliability
A213	Class 2002 Cost Allocation	Management Services Type 1
A510	SMD2.0 - Planning and Specification	SMD- 50% Real-Time Ops, 50% Energy / AS Markets
A535	AMP II	Energy And Ancillary Services Markets
A536	BME/SCD Replacement Design	SMD- 50% Real-Time Ops, 50% Energy / AS Markets
A541	TCC Online Auction Automation	TCC Markets
A543	UCAP Market Automation	Capacity Markets
A545	OSS (Open Scheduling System) w/ External Transaction Ramp Management	Energy And Ancillary Services Markets
A546	Decision Support System I (Data Dictionary/Meta Data)	Billing Systems Development
A548	Decision Support System II	Billing Systems Development
A549	Billing System Improvement - Phase 1	Billing Systems Development
A556	Documentum Implementation	Management Services Type 1
A559	SMD 2.0 Integration	SMD- 50% Real-Time Ops, 50% Energy / AS Markets
A561	Control Room Logging Improvements	Real-Time Operations
A564	Bi - Directional Modeling of Generation	Customer Specific
A573	SMD 2.0 Market Systems Implementation	SMD- 50% Real-Time Ops, 50% Energy / AS Markets
A574	SMD 2.0 Ranger Tracking	SMD- 50% Real-Time Ops, 50% Energy / AS Markets
A582	2002 SAS 70	Management Services Type 1
A583	Billing System Improvement - Phase 2	Billing Systems Development
A587	Implementation of Corporate Continuity Plan	Management Services Type 1
A600	Open Billing Issues	Billing and Customer Service
A601	Marcy Facts Phase II Implementation Study	Energy And Ancillary Services Markets
A604	Market Monitoring Reporting Database Improvements(SCUC/FI/RPU)	Energy And Ancillary Services Markets
A609	Real Time Mitigation & Out Of Merit	Energy And Ancillary Services Markets
A612	Improved SCUC performance	Energy And Ancillary Services Markets
A613	dts dispatcher simulator functionality	Real-Time Operations
A614	Day-Ahead Demand Response Program Enhancements	Energy And Ancillary Services Markets
A617	Develop Transfer Limits for 2002 MARS Study	Capacity Planning
A618	Develop Access to Historic System Data	Management Services Type 1
A619	TransEnergie Long Island Sound Cable	Customer Specific
A620	AMP III	Energy And Ancillary Services Markets
A621	Restoration Sensitivity Studies	System Reliability
A623	New Loss Calculation	Energy And Ancillary Services Markets
A624	Four Month Final Bill	Billing Systems Development
A625	Direct Generator Communications Implementation	Real-Time Operations
A631	Eric Hirst Consulting Review of RTS Design	Real-Time Operations
A636	85 / 15 Rate Schedule 1 Split	Management Services Type 1
A637	GT Management II / Persistent Dragging	Real-Time Operations
A638	Create Process Flows for Customer Settlements	Billing Systems Development
A639	2003 SAS 70 Type 2 Audit	Management Services Type 1
A640	PTS & AGC Audit Controls	Management Services Type 1
A645	Operations Reactive Studies	System Reliability
A646	Customer Settlements Tracking Reporting DB	Billing Systems Development
A647	Station Power Accounting	Billing and Customer Service
A649	Oracle 9i Upgrades	Management Services Type 1
A653	SRIS / Global Winds Harvest Prattsburgh Wind Park Project(Reimbursable)	Customer Specific
A655	SRIS for the Bay Energy Project (Reimbursable)	Customer Specific
A656	SRIS / TransEnergieUS PJM/Newbridge Rd. HVDC Project(Reimbursable)	Customer Specific
A657	OSS SMD Support - 15-min Sched / HAM PS	Energy And Ancillary Services Markets
A658	OSS - 2nd Node (A658)	Energy And Ancillary Services Markets
A659	OSS - PJM Ramp Integration (A659)	Energy And Ancillary Services Markets

A660	E-Tagging Integration (A660)	Energy And Ancillary Services Markets
A661	DSS Settlements Datamart II - Enhancements	Billing Systems Development
A662	DSS Settlements Datamart III (A662)	Billing Systems Development
A663	DSS Settlements Datamart IV	Billing Systems Development
A664	DSS Market Monitoring Datamart I	Energy And Ancillary Services Markets
A665	FERC Case - PJM Model Impact Evaluation	Customer Specific
A667	Scarcity Pricing and Shadow Price Adder	Energy And Ancillary Services Markets
A668	Scheduling and Pricing Non-Competitive Proxy Interfaces	Energy And Ancillary Services Markets
A669	ClearQuest Implementation	Management Services Type 1
A670	BIG Policy and procedure Implementation	Billing and Customer Service
A671	Process Improvement - Software Development Life Cycle	Management Services Type 1
A672	Quebec-New York Interconnection Limit Analysis	System Reliability
A673	Athens Generation In-Service Operating Study	Customer Specific
A674	Data Center Upgrades	Management Services Type 1
A675	Billing Simulator	Billing Systems Development
A677	SRIS for the Flat Rock Windpower 230 kV Interconnection Project	Customer Specific
A678	SRIS for the Conjunction Empire Connection HVDC Project (Reimbursable)	Customer Specific
A680	Annual (2003) New York Area Transmission Review	System Reliability
A681	Class 2003 Cost Allocation (Including ATBA and ATRA)	System Reliability
A682	NYISO Transmission Planning Process	System Reliability
A683	BEA Upgrade	Management Services Type 1
A685	85/15 Schedule 1 Cost Allocation (Phase 2)	Management Services Type 1
A686	Allocation Adjustments (EDRP, TA, QSR)	Billing Systems Development
