MSWG Update

Met on September 12th to review:

- VSS Proposal - Developed motion before BIC
- TCC Seller & Buyer Agreements - Began discussions of revisions discussed at last BIC
- Attachment L - Reviewed revisions
- Market Rules for Wind Power - Began discussions of market rules treatment for wind resource providers. Discussions will continue at the next WG meeting.
- 15 Minute Scheduling for Internal Generation- Discussed draft tariff language and accompanying Tech Bulletin
- Local Black Start - Gave update on discussions for non-Load Zone J local service providers. Motion scheduled for consideration at this BIC meeting
- Self Supply of Reserves - Proposed response to FERC discussed and is on the BIC agenda for approval.

Next meeting is tentatively scheduled for October 14th
