Major Software Pre-Deployment Considerations

July 12, 2006

Business Issues Committee Meeting

Presented by Mike Calimano

Draft – For discussion only

Major Software Pre-Deployment Considerations

- Size and complexity of software deployment
  - *Requires an MIS outage*
  - *Impact on markets*
- System Conditions
  - *Weather conditions*
  - *State of the bulk power system*
  - *Neighboring control areas*

Major Software Pre-Deployment Considerations

- Legal or Regulatory Compliance Requirements

- Required Market Participant Notifications

- Adequate Customer Relations briefing/staffing

- Options for alternate scheduling of deployment to a different time of the day/week

- Review by senior management

Draft – For discussion only
