

Western NY Public Policy Transmission Need: Process for Questions

Zach Smith

*Director, Transmission Planning
New York Independent System Operator*

ESPWG

December 8, 2015

Schedule

- ◆ 11/1: NYISO solicited Public Policy Transmission Projects and Other Public Policy Projects
- ◆ 12/1: Developer qualification due date
- ◆ 12/31: Developers submit required project information
 - *See Section 3.3 of Public Policy Transmission Planning Process Manual for details*
 - *NYISO encourages Developers to submit a valid Interconnection Request or a Study Request, as applicable, at this time*
 - NYISO proposed this submission as a tariff requirement in its June 29, 2015, filing currently pending at FERC
- ◆ 12/31: Developers proposing a Public Policy Transmission Project also provide:
 - *Executed study agreement (PPTPP Manual, Attachment E)*
 - *Non-refundable application fee of \$10,000*
 - *Study deposit of \$100,000*

FAQ Document

- ◆ NYISO has received numerous questions seeking clarification to information provided in the tariff, manual, solicitation letter, and baseline results.
- ◆ On 12/3, NYISO posted a frequently-asked-questions (FAQ) document summarizing questions received and answers provided.
 - *Planning > Planning Studies > Public Policy Documents > Western NY*

Additional Questions

- ◆ FAQ document posted on December 3 established a deadline for any additional questions:
 - *Additional questions received by the NYISO prior to December 9, 2015, will be answered by December 15.*
 - *Questions received after December 9 will not be answered until after December 31.*
- ◆ Questions regarding the Western NY Public Policy Transmission Need may be sent to:
PublicPolicyPlanningMailbox@nyiso.com

The New York Independent System Operator (NYISO) is a not-for-profit corporation responsible for operating the state's bulk electricity grid, administering New York's competitive wholesale electricity markets, conducting comprehensive long-term planning for the state's electric power system, and advancing the technological infrastructure of the electric system serving the Empire State.
