

Business Issues Committee
June 10, 2003
Agenda Item #8

Motion:

Motion to Amend the TCC Revenue Shortfall proposal as approved by the Business Issues Committee on May 7th, 2003, and the Management Committee on May 14th, 2003, to provide that congestion rent shortfalls caused by transmission facility outages in the Day Ahead Market and in the TCC Reconfiguration and Capability Period auctions, including excesses when lines are modeled out of service in the TCC auctions and returned early, will be allocated to the Transmission Owner causing the outages even when the outage is on another Transmission Owner's facility.
