ⁱ Goal 6: Reprioritization Process

Reprioritization Process – If reprioritization of Project Initiatives is required, a presentation to the Board will occur to identify the following:

- 1) Reason for the reprioritization (e.g. Regulatory Action or Order, Market Inefficiency)
- 2) Project deliverables that will be adjusted
- 3) Newly identified projects that will be added to the work plan
- 4) Stakeholder feedback regarding the reprioritization as received from the Budget & Priorities Working Group
- 5) Project status reporting will be reviewed and updated for impacted projects. The intent of this step is to provide transparency regarding the status and specific reasons projects are being deferred or eliminated. A recommendation will be provided to the Board regarding if there should be any project “misses” identified for the purpose of the incentive plan.

The project plan will be modified to reflect the revisions and the incentive achievement will be measured against the revised plan, unless the Board provides definitive direction not to implement the reprioritization effort or recommends an alternate approach regarding the incentive plan.
