

Impact of Con Edison Local Transmission Plan Update on the 2020 Q3 Short-Term Reliability Process Needs Solicitation

Keith Burrell

Manager, Transmission Studies

TPAS/ESPWG

November 2, 2020

Impact of Con Edison LTP Update on the 2020 Q3 Short-Term Reliability Process Needs Solicitation Schedule

- **Con Edison's LTP update may impact the findings of the 2020 Quarter 3 Short-Term Assessment of Reliability (review is currently underway at the NYISO) which observed near-term reliability needs in 2023**
 - Prior to soliciting for solutions to the near-term reliability needs, the NYISO is reviewing whether, and the extent to which this LTP update may address the identified 2023 needs
 - The NYISO will inform stakeholders as soon as possible if this LTP addresses the near-term reliability needs in 2023

Our mission, in collaboration with our stakeholders, is to serve the public interest and provide benefit to consumers by:

- Maintaining and enhancing regional reliability
- Operating open, fair and competitive wholesale electricity markets
- Planning the power system for the future
- Providing factual information to policymakers, stakeholders and investors in the power system
