

Exhibit A**Revisions to NYISO's Proposed Definitions of "Capacity Exposed to Market Prices without Entry" and "Capacity Exposed to Market Prices with Entry"****Proposed Section 23.4.5.7.14.3.1.1(b)**

Add the following language to the end of the section:

minus

"Previously Included Capacity Exposed to Market Prices without Entry," which shall be determined as follows:

When calculating "Capacity Exposed to Market Prices without Entry" for the New York City or Long Island Localities, "Previously Included Capacity Exposed to Market Prices without Entry" shall be zero.

When calculating "Capacity Exposed to Market Prices without Entry" for the G-J Locality, "Previously Included Capacity Exposed to Market Prices without Entry" shall be set equal to "Capacity Exposed to Market Prices without Entry" calculated for the New York City Locality.

When calculating "Capacity Exposed to Market Prices without Entry" for the NYCA, "Previously Included Capacity Exposed to Market Prices without Entry" shall be set equal to the sum of "Capacity Exposed to Market Prices without Entry" calculated for the G-J, New York City and Long Island Localities.

Proposed Section 23.4.5.7.14.3.1.2(b)

Change the period at the end of the section to a semicolon, and add the following language to the end of the section:

minus

"Previously Included Capacity Exposed to Market Prices with Entry," which shall be determined as follows:

When calculating "Capacity Exposed to Market Prices with Entry" for the New York City or Long Island Localities, "Previously Included Capacity Exposed to Market Prices with Entry" shall be zero.

When calculating "Capacity Exposed to Market Prices with Entry" for the G-J Locality, "Previously Included Capacity Exposed to Market Prices with Entry" shall be set equal to "Capacity Exposed to Market Prices with Entry" calculated for the New York City Locality.

When calculating "Capacity Exposed to Market Prices with Entry" for the NYCA, "Previously Included Capacity Exposed to Market Prices with Entry" shall be set equal to the sum of "Capacity Exposed to Market Prices with Entry" calculated for the G-J, New York City and Long Island Localities.
