# LCR Procedure Update

- **2.4. – Added sentence on presenting a summary of year-over-year changes to LCRs**
- **3.2 – Removed this section and sub-bullets and shifted section numbering appropriately**
  - Section is in reference to ICAP Load Forecast, better aligning assumptions of the IRM Study and the LCR calculations
- **3.3.3 – Added subsection on material changes to the IRM and the inclusion for the LCR Study**
- **4.1 – Added section to make mention of running the LCR Software using final data**
- **Redlined and clean versions of procedure attached to the meeting materials**

# Next Steps

- Review feedback on LCR calculation process updates
- Implement and post new process
- Send notice to ICAPWG members when posted

# Questions?

Questions or comments can be sent to [IRM@nyiso.com](mailto:IRM@nyiso.com)

# Our mission, in collaboration with our stakeholders, is to serve the public interest and provide benefit to consumers by:

- Maintaining and enhancing regional reliability
- Operating open, fair and competitive wholesale electricity markets
- Planning the power system for the future
- Providing factual information to policymakers, stakeholders and investors in the power system
