

People Who Power New York

We are **engineers, operators, analysts**
and **IT developers** keeping the lights on
for 19 million New Yorkers

A powerful purpose

Independent and not-for-profit, we are focused on providing

- 🔍 **Transparent operations**
- ✓ **Grid reliability**
- 💡 **Technological innovation**
- 👉 **A greener future**

A great place to work

⇒ **570+ employees** strong, in operation since 1999

⇒ We **reliably provide** New York's energy markets & power grid with energy every New York minute

⇒ **Located 3 hours** from NYC by train & 10 minutes to NY's capital in Albany

An authoritative source

Informing New York's energy future

“ The pace of change is driven by technology and by public policy.

Our independent research, effective power grid and market operations are fundamental to ensuring the long term energy needs of New Yorkers. ”

Bradley C. Jones, President & CEO

An electric culture, tied to community

- ⇒ 9,000+ visitors hosted from around the globe
- ⇒ \$1.4 million donated to local charities by employees
- ⇒ Numerous volunteer opportunities with local charities
