

Joint Utility Stakeholder Engagement

- April 29th Virtual Workshop (9 am – 11 am)
- Objective: For JU members to discuss with the Aggregator community and other interested parties (such as DPS staff) the distribution utilities' plans to support the implementation of the NYISO's DER Participation model, including the FERC 2222 tariff revisions. The draft agenda for the 29th includes timeslots for Telemetry, DU-Aggregator Communications, and Safety and Reliability Studies.
- The JU encourages participants to propose additional topics for presentation and discussion on the 29th . Additional workshops may be scheduled, as necessary.
