Attachment A NYISO Facilities Requiring Coordination and Notification

Attachment A contains the following information:

- Notification Requirements Table for NYISO Monitored Facilities.
- Those facilities with a “Y” in the “ISO Control” column are the “A-1 facilities” referenced in the ISO/TO Agreement.
- Those facilities that are not designated with a “Y” in the “ISO Control” column are the “A-2 facilities” referenced in the ISO/TO Agreement.
- Those facilities with a “Y” in the “BMS Secured” column are secured in the Day-Ahead and Real-Time market systems.
- Those facilities with a “Y*” in the “BMS Secured” column are secured only in the Real-Time market systems.

Notes on Attachment A

- All external tie facilities are secured through external transaction interface Total Transfer Capability (TTC) limits.
- Internal NYCA facilities greater than 100 kV that are ISO secured, but not BMS secured, are facilities that have not historically been limiting.
- All internal NYCA facilities greater than 100 kV, whether ISO Secure or not, are subject to the provisions of the NYISO T & D Manual; which establishes criteria for adding or removing facilities to the BMS Secure list.
- It is recognized that due to changes in system configuration, a facility that has not been included on this list may require coordination by the NYISO.
- Similarly, if the outage of a facility that has not been included has an effect on the operation of a facility that requires coordination, that outage will be coordinated by the NYISO.
- NYISO notifies TOs and External Control areas based on Table A.1.

Column Definitions

- Equipment Name: Name of transmission facility.
- ISO Secure: NYISO Secured Transmission System within the NYS Transmission System.
- BMS Secure: Transmission facilities that are secured, in whole or in part, directly through the NYISO’s SCUC, RTC or RTD evaluation.
- ISO Control: Transmission Facilities under NYISO Operational Control and Requiring NYISO Notification.
- Notify Time: Minimum number of calendar days in advance that requests for outages must be received. In the case of 30, it pertains to no later than 30 calendar days before the first day of the operative TCC month.
- _: Denotes not applicable.
- Transmission Owners (PA, NG, NT, RG, NY, LS, CH, OR, CE, LI) and External Control Areas (OH, PJ, NE, HQ), the following definitions apply:
 - S: Switching Authority; the TO who authorizes switching of major facilities within or affecting the TO's own system under both normal and emergency conditions. Switching Authority can also be an owner of the facility.

- O: Owner; designates full or partial ownership of the facility.
- I: Transmission Owners or External Control Areas to be informed regarding a scheduled or real-time change of status of the facility.
- C: Transmission Owners or External Control Areas to be informed regarding a scheduled change of status of the facility.
- A: Associated; designates full or partial ownership of switching equipment for the facility and is not an owner or switching authority.

In addition to generators and high voltage transmission lines, facilities listed are based on the following rationale:

1. Any power transformer connected directly to a NYCA facility 100 kV and above.
2. All shunt reactive equipment 100 MVARs and greater connected to systems 100 kV and above.
3. Buses, breaker and a half configurations, and/or ring-buses are not listed as separate NYCA elements but do require notification to the NYISO.
4. Special Protection Systems, which, if removed from service, may have a reliability impact on the NYCA (For more details on Special Protection Systems, see the *NYISO Reliability Analysis Data Manual* (available from the NYISO Web site at <https://www.nyiso.com/manuals-tech-bulletins-user-guides>), are not listed as separate NYCA elements but do require notification to the NYISO.
5. Generator leads are not included but do require notification to the NYISO.

Changes to the list of facilities are made as prescribed in the *NYISO Transmission Services Manual* (available from the NYISO Web site at the following URL: <https://www.nyiso.com/manuals-tech-bulletins-user-guides>).
