

## 15.2 Rate Schedule 2 - Payments for Supplying Voltage Support Service

### 15.2.2.1 Annual Payment for Voltage Support Service

For purposes of the calculation set forth in Section 15.2.2 of this Rate Schedule, the annual payment to Suppliers qualified and eligible to provide Voltage Support Service shall equal the product of the VSS Compensation Rate and the sum of the lagging and the absolute value of the leading MVar capacity of the resource, as evidenced by tests conducted pursuant to ISO Procedures.

For VSS Suppliers that are ~~CSR~~ Generators that participate in a CSR, compensation for each VSS Supplier shall be limited to the lesser of its Reactive Power capability, demonstrated in accordance with ISO procedures, or the total Reactive Power capability at the CSR's Point of Injection/Point of Withdrawal. For a Hybrid Storage Resource, Voltage Support Service compensation shall be limited to the lesser of the Reactive Power capability of the participating Generators, demonstrated in accordance with ISO procedures, or the total Reactive Power capability at the Hybrid Storage Resource's Point of Injection. Otherwise, the Voltage Support Service rules that apply to other Generators apply to Generators that participate in a CSR and to Hybrid Storage Resources.

The VSS Compensation Rate of \$2,592/MVar, as determined in 2014, shall be adjusted annually by the annual average Consumer Price Index of the previous year.
