

# Grid in Transition Study: Update on Report

---

Nicole Bouchez, Ph.D.  
Principal Economist, Market Design

**ICAP/MIWG**

November 14, 2022

# Update

- **As covered at the October 7 ICAP/MIWG meeting, we have been working on the white paper and as expected, the structure of the report is similar to the presentations to ICAP/MIWG and focuses on the Phase 2 analysis.**
- **The draft white paper is posted for comment with today's material.**
  - You will see that the paper is in draft form and is missing certain sections, figures, and tables. It still needs work however it provides an opportunity for stakeholders to provide comments before the study is finalized.
- **Please provide comments as soon as practicable.**
  - All comments submitted by December 5 will be considered as the NYISO finalizes the white paper.
- **The white paper will be finalized in December.**

# Our Mission & Vision

## Mission

Ensure power system reliability and competitive markets for New York in a clean energy future

## Vision

Working together with stakeholders to build the cleanest, most reliable electric system in the nation
