

**Reservation of Transmission Capacity Associated with OATT Attachment L Table 1A Contract Nos.
14.1 and 14.2
June 30, 2023 Update**

The NYISO [posted](#) Accepted Revisions to Table 1A of Attachment L of the NYISO’s Open Access Transmission Tariff (OATT), effective 6/9/2023, which revised the expiration/termination date of Contract Nos. 14.1 and 14.2 from “Later of ret. of Bonds or upon mutual agreement” to 5/31/2023.

Per Section 17.9.1.2 of Attachment K of the OATT, the NYISO shall not include Accepted Revisions in effect for less than 30 days prior to the first round of an auction when administering Reconfiguration Auctions and Centralized TCC Auctions. Additionally, Section 17.9.1.3 of Attachment K requires the NYISO to hold transmission capacity out of Reconfiguration Auctions and Centralized TCCs Auctions that might otherwise be made available by an Accepted Revision until completion of the process to determine eligibility for purchasing Historic Fixed Price TCCs (HFPTCCs) resulting therefrom. Therefore, the impact of these Accepted Revisions was not reflected in the July 2023 Balance-of-Period Auction. The records shown in the table below were entered in the TCC Automated Market System (AMS) to reserve the transmission capacity previously associated with these now terminated contracts in compliance with the requirements described above.

Contract ID	Start Date	End Date	POI ID	POI Name	POI Zone	POW ID	POW Name	POW Zone	MW Summer	MW Winter
718058	7/1/2023	10/31/2023	61760	DUNWOD	DUNWOD	61762	LONGIL	LONGIL	307	300
718060	7/1/2023	10/31/2023	61760	DUNWOD	DUNWOD	61762	LONGIL	LONGIL	202	202

The NYISO determined that the termination of Contract Nos. 14.1 and 14.2 qualified for an offer to convert the expired contracts into HFPTCCs. Subsequently, the conversion offer was declined.

As a result, the above records will be removed from the TCC AMS in advance of the August 2023 Balance-of-Period Auction allowing the impact of the Accepted Revisions to be reflected in TCC auctions. All feasible transmission capacity associated with the terminated contracts will be made available to support the sale of TCCs beginning with the August 2023 Balance-of-Period Auction.
