

Engaging the Demand Side: Offsite Meeting Details

Francesco Biancardi

Market Design Specialist, New Resource Integration

February 28, 2023, NYISO

Agenda

- **Project Overview**
- **Offsite Meeting Details**
 - Scheduling Details
 - Shortlist of Meeting Topics

Project Overview

Project Overview

- **Deliverables:**

- Q4 Issue Discovery

- **Project Description:**

- Engaging the Demand Side is intended to be a highly collaborative project that will leverage stakeholder feedback in identifying potential issues with or gaps in the NYISO's existing participation opportunities for Demand Side Resources and DER generators. Information gathered as part of this project will inform a final report to be released in Q4 of 2023, which will recommend next steps regarding future Market Design projects/efforts to address solicited feedback.

Stakeholder Engagement Plan

■ March 22/23, 2023

- The NYISO will begin by holding discussions with stakeholders
 - Two off-site discussions have been scheduled; More details in later slides
 - More discussions to be scheduled as necessary

■ April -> August 2023

- Project updates provided to NYISO Working Group meetings

■ Q4 2023

- NYISO will share its report with stakeholders that will recommend next steps to address solicited feedback

External Meeting Details

External Meeting Details

- **The NYISO has previously announced two off-site, in-person discussions to be held at the Renaissance Albany Hotel**
 - Discussions will be held March 22 and March 23, starting at 10AM
 - Discussions will be open to all Market Participants
 - The location will have seating limitations; the NYISO will work to best accommodate all looking to participate
- **Discussions will be divided topically, by sector:**
 - Discussions at the March 22 meeting will be grounded in the C&I sector
 - Issues/gaps/concerns regarding the participation of Demand Side Resources and DER generators in the NYISO markets
 - Other topics as brought forth in the discussion
 - Discussions at the March 23 meeting will be grounded in the Mass Market sector
 - Issues/gaps/concerns regarding the participation of Demand Side Resources and DER generators in the NYISO markets
 - Small (< 10kW) DER Participation
 - Other topics as brought forth in the discussion

Demand Side Resource and DER Generator Participation

- **NYISO has heard feedback that the present SCR and DER models will still make it difficult for participation of some Demand Side Resources and/or DER generators**
- **NYISO would like to hear more specific Stakeholder feedback regarding:**
 - Operational (or other) issues/risks that participants face in the NYISO's demand response and DER models, and
 - How those issues/risks change how participants participate in the NYISO-administered wholesale markets

Small DER Participation

- **NYISO seeks to gather feedback from the March 22/23 discussions regarding Small DER Participation:**
 - NYISO would like to gather additional detailed feedback regarding potential use cases for small DER.

Next Steps

■ April

- NYISO will evaluate feedback received during the March discussions, and
- Determine whether additional, similar discussions are necessary to support project goals

Our Mission & Vision

Mission

Ensure power system reliability and competitive markets for New York in a clean energy future

Vision

Working together with stakeholders to build the cleanest, most reliable electric system in the nation
