

A vertical image on the left side of the page showing a close-up of a white offshore wind turbine. The turbine's three blades are visible, extending from a central hub. The tower is white with a yellow band near the base. The background is a deep blue, suggesting the ocean and sky. The image is partially obscured by the text on the right.

Appendix Q: NYPA Designated Public Policy Project

Designated Public Policy Project

Pursuant to Section 31.4.11 of the OATT, the NYISO has identified the following facilities of the recommended project, which is further described in Appendix E and Propel NY's project submittal, as a Designated Public Policy Project and preliminarily assigned NYPA as the Designated Entity. The Designated Public Policy Project is required to be in service on or before May 2029 in order for the recommended project to meet the overall in-service date.

- Expansion of East Garden City 345 kV Substation into a breaker-and-a-half configuration, installation of shunt reactors and a 345 kV PAR
