Appendix R: Con Edison Designated Public Policy Project

Designated Public Policy Project

Pursuant to Section 31.4.11 of the OATT, the NYISO has identified the following facilities of the recommended project, which is further described in Appendix E and Propel NY's project submittal, as a Designated Public Policy Project and preliminarily identified Consolidated Edison Company of New York, Inc. as the Designated Entity. The Designated Public Policy Project is required to be in service on or before the Required Project In-Service Date of May 2030.

- Installation of breakers at Rainey 345 kV Substation
