
System Operations Advisory Subcommittee
Meeting Minutes
September 7, 2023
Teleconference
10:00 a.m. – 11:05 a.m.

1. Administrative

Mr. Colin Gallagher (National Grid) welcomed everyone to the meeting and took attendance. The meeting minutes from August 2023 were approved.

2. Chairman’s Report

Mr. Gallagher reported he had not received any correspondence from the Operating Committee (OC) since the last meeting.

3. NYISO Staff Reports

a) Operations Report – August 2023

Ms. Tara Lefevre (NYISO) reviewed the August 2023 Operations Report included with the meeting material. There were no questions.

b) Training Report

Mr. Tom Whalen (NYISO) reviewed the training report included with the meeting material.

Mr. Rahul Pandit (PSEG) asked if there any limitation on the support staff attending SOTS training.

4. Central East Stability Study

Mr. Adam Hargrave (NYISO) reviewed the presentation included with the meeting material.

Mr. Mark Younger (Hudson Energy Economics) asked for clarification on the study, assuming the completion of segments A and B, or some interim step on segment A and B. In addition, Mr. Younger asked when are the lines actually expected to be in service.

5. Total East Stability Study

Mr. Raj Dontireddy (NYISO) reviewed the presentation included with the meeting material.

Mr. Younger asked for clarification if there are any software changes that are necessary to be able to represent the revised limits from these three studies in the day ahead and real time market, and if there are any changes that are necessary. Mr. Dontireddy said the NYISO made arrangements for software testing and for it to be released.

6. Central East Voltage Collapse Study

Mr. Kyle Ardolino (NYISO) reviewed the presentation included with the meeting material.

7. Constraint Specific Transmission Shortage Pricing: Manual Updates

Mr. Padam Singh (NYISO) reviewed the presentation included with the meeting material. There were no questions.

8. New Business

None.

The next meeting is on Thursday, October 5, 2023.
