
**System Operations Advisory Subcommittee
Meeting Minutes
February 8, 2024
Teleconference
10:00 a.m. – 10:30 a.m.**

1. Administrative

Mr. Ken Buske (National Grid) welcomed everyone to the meeting and took attendance.

2. Chair's Report

Mr. Buske reported he had not received any correspondence from the Operating Committee (OC) since the last meeting.

The meeting minutes from January 11, 2024 were approved.

3. NYISO Staff Reports

a) Operations Report – January 2024

Ms. Tara Lefevre (NYISO) reviewed the January 2024 Operations Report included with the meeting material. There were no questions.

b) Training Report

Mr. Josh Jacobi (NYISO) reviewed the training report included with the meeting material. There were no questions.

4. Chateauguay-Massena Interconnection Operations above 1,500 MW

Mr. Kyle Ardolino (NYISO) reviewed the presentation included with the meeting material.

In response to a question, Mr. Ardolino said the 1,500 MW transfer value was also used in the NYISO's most recent studies for Central East.

In response to a question, Mr. Ardolino said the NYISO could not predict system conditions in the future, but the NYISO would gain experience with the new modeling of Segment A and B additions and its impact on operations above 1,500 MW.

Mr. Scott Leuthauser (HQ US) asked how often the 1,800 MW been triggered in accordance with Technical Bulletin 150 (TB 150). Mr. Jon Sawyer (NYISO) said TB 150 specifies that when the 1,500 MW limit is reached, the NYISO goes above it in 100 MW increments at a time so it is controlled and it is based on conditions and bids scheduled into NY. It has been done but it is not a frequent occurrence.
