April 15, 2024

Revised Transition Cluster Timeline

(updated dates in red)

*The date of the NYISO's compliance filing is <u>anticipated</u> to be May 1, 2024, with an effective date of May 2, 2024. The anticipated start date for the Pre- Application Process is planned for May 2, 2024.

Pre-Application Process

Pre-Application Process

- NYISO proposes to include in its compliance filing a Pre-Application process to further the goal of Order No. 2023 to provide greater information access to potential Interconnection Customers.
- The Pre-Application Process is optional and would be available to prospective projects interested in entering a Cluster Study.

Pre-Application Process

- Any requester (whether in the interconnection queue or not) can submit a request using the Pre-Application Request form.
 - \$5,000 per Point of Interconnection
 - 25% allocated to NYISO
 - 75% allocated to Connecting TO/Affected TOs
 - Maximum of 2 POIs per Pre-Application Request
 - Pre-Application Requests can be submitted on a rolling basis at any time except during the following 90-day timeframe:
 - 45-calendar days before a Cluster Application Window begins through the end of the Application Window
 - This pause will enable the NYISO/NYTOs to focus on completing pending Pre-Application Requests and timely validating Interconnection Requests in the Application Window.
 - Pre-Application Request form template is posted with the meeting materials

Pre-Application Process, cont.

- NYISO will route the Pre-Application Request to the applicable Connecting Transmission Owner
 - Upon the Transmission Owner confirmation that it is the Connecting Transmission Owner, it will
 proceed to a scoping meeting
 - Connecting Transmission Owner will complete the Pre-Application Report within 25 Business Days after the Pre-Application scoping meeting.
- Information available in a Pre-Application Report* (see template posted with meeting materials):
 - POI line/substation name, ID, bus numbers and circuit IDs, voltage, ratings (normal, LTE and STE), terminal end stations
 - For sub-transmission and distribution POIs, circuit loading, peak and minimum load, existing generation MW and proposed generation MW
 - Additional Information (e.g., description of potential new substation bus configuration (not a conceptual one-line diagram), transmission constraints, planned transmission upgrades, parallel lines, breaker rating, available breaker positions, existing/known constraints known physical feasibility issues)

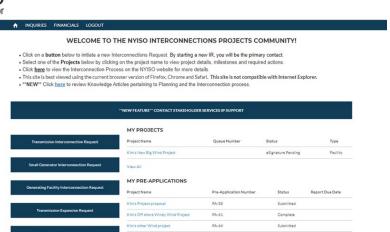

^{*}To the extent readily available data exists

Interconnection Projects Portal (IP Portal)

Home Screen – Interconnection Customers (IC)

There will be a new option on the home page to submit a Pre-Application.

Submitted pre-applications will show in a new section – "My Pre-Applications."

Any open requests for additional information will show in the new section – "Open additional information requests."

Completing the Pre-Application

 Click the Pre-Application button and a new window presents to begin the application by selecting Start Pre-Application.

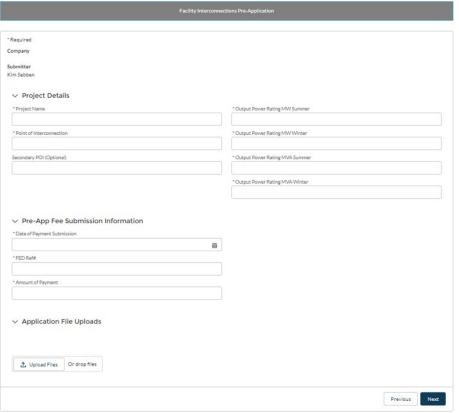

Pre-Application

- Complete all fields
- Upload Pre-Application
 - www.NYISO.com/interconnections -Additional Request Forms Section
- Select Next

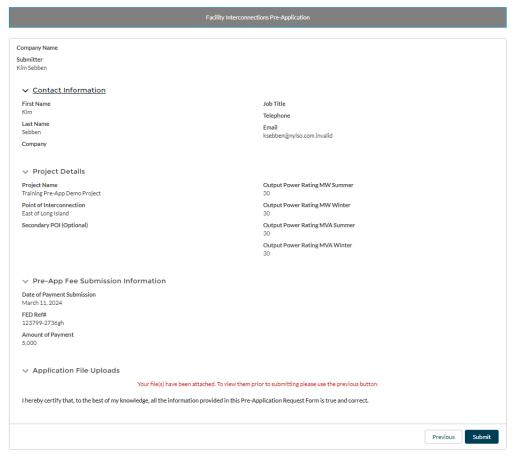

WELCOME TO THE NYISO INTERCONNECTIONS PROJECTS COMMUNITY!

Submitting Pre-Application

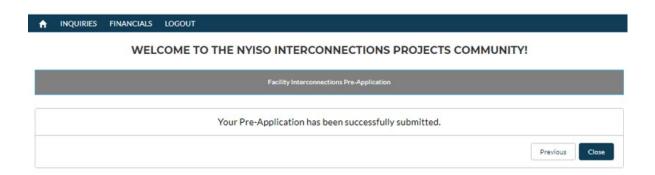

- Screen presents the data you entered and allows you to
 - Submit or
 - Choose Previous to go back and correct data or review attached file(s).

Pre-application confirmation

Once Submitted you will receive a confirmation on screen

- The pre-application will also be available on the home screen in the pre-application section.
 - Click on project name to be brought back into pre-application.

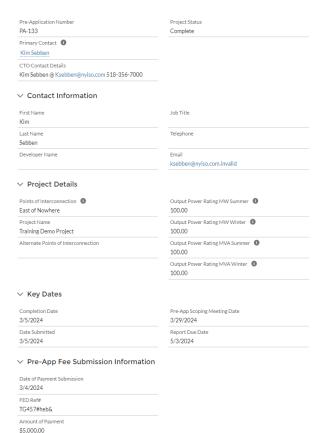

Pre-App actions

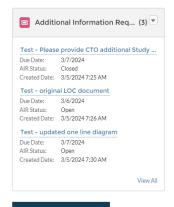

- Additional information will be updated/completed by NYISO & CTO(s).
 - Project Status
 - Pre-App Scoping Meeting Date
 - Report Due Date(25 BDs from Scoping meeting date)
 - CTO & CTO contact details
 - Additional information Requests (AIR)
 - Final pre-application report

Interconnection Customer can:

- View information
- Access file(s)
- Manage Project Contacts
- Respond to AIR

WELCOME TO THE NYISO INTERCONNECTIONS PROJECTS COMMUNITY!

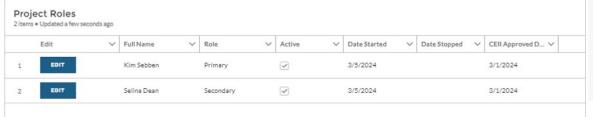

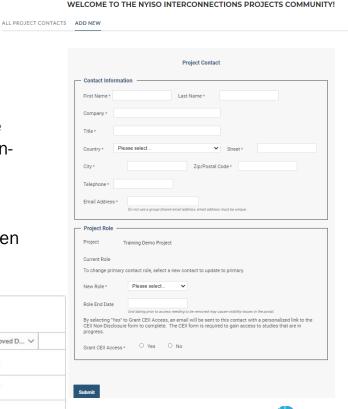

Manage Project Contacts

Manage Project Contacts

- Click Manage Project Contacts
- Select Add New tab
- New screen presents & complete all fields
 - By selecting "Yes" to Grant CEII access, an email will be sent to the individual to complete the required CEII/Non-Disclosure Agreement request.
 - Once the CEII/Non-Disclosure Agreement request is completed and the individual is approved, the CEII approval date will be added to contact which can be seen on Project Roles 'View All'.

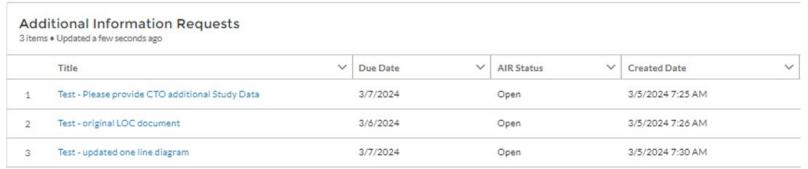

♠ INQUIRIES FINANCIALS LOGOUT

Additional Information Requests (AIR)

- Click View All in AIR box
- Click Title of AIR you want to see additional details or provide response

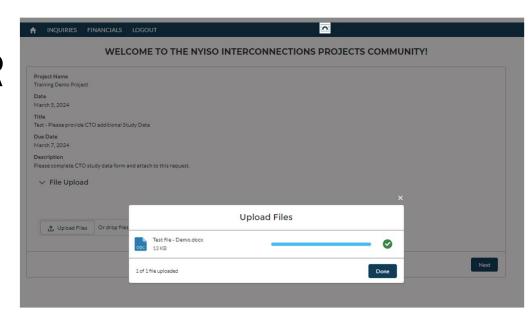

Responding to AIR

- Click into AIR title on main page
- Choose upload files & select document(s)
- Click done
- AIR status will change to closed & document(s) will be available in Pre-Application Files section

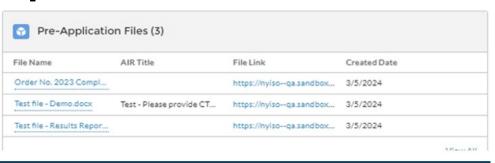

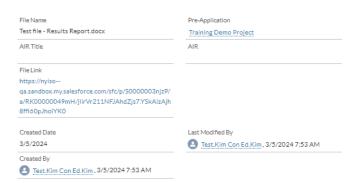

Pre-Application complete

CTO will upload Final Pre-Application Report

- Completion date will be updated,
- Project Status will be changed to Complete
- Notification sent to submitter
- Report can be accessed from Pre-Application Files section
- Click File Link

WELCOME TO THE NYISO INTERCONNECTIONS PROJECTS COMMUNITY!

INQUIRIES FINANCIALS LOGOUT

Notifications that will be generated

- An Email to notify the CTO of a new project assignment
- An Email notification to the Planning Team if CTO declines an assignment
- An Email to notify the Interconnection Customer who submitted the pre-application when a file is uploaded
- An Email to notify Interconnection Customer a new Additional Information Request is submitted
- An Email to notify CTO when an Additional Information Request is completed
- An Email to notify Interconnection Customer that the CTO has uploaded the final report
- An Email to notify Interconnection Customer that the CTO has withdrawn the Pre-Application

Questions?

Roles of the NYISO

- Reliable operation of the bulk electricity grid
 - Managing the flow of power on 11,000 circuit-miles of transmission lines from hundreds of generating units
- Administration of open and competitive wholesale electricity markets
 - Bringing together buyers and sellers of energy and related products and services

- Planning for New York's energy future
 - Assessing needs over a 10-year horizon and evaluating projects proposed to meet those needs
- Advancing the technological infrastructure of the electric system
 - Developing and deploying information technology and tools to make the grid smarter

Our Mission & Vision

Mission

Ensure power system reliability and competitive markets for New York in a clean energy future

Vision

Working together with stakeholders to build the cleanest, most reliable electric system in the nation
