

Annual Solicitation of Market Participant Input: **External MMU's Performance**

Joshua Boles

DIRECTOR, MARKET MITIGATION & ANALYSIS

Management Committee Meeting

April 24, 2024

Background

- In December of 2021, the NYISO executed a three-year contract with Potomac Economics to perform the NYISO's Market Monitoring Unit (MMU) functions. The current MMU contract term is from January 1, 2022 through December 31, 2024.
- At the July 2014 Board Liaison Meeting, the New York Transmission Owners requested to establish a process for Market Participants to provide input to the NYISO Board on:
 - The MMU's performance of its duties; and
 - The renewal of NYISO's contract with the MMU

NYISO Board of Directors (Board)

- **The NYISO tariffs establish the Board's requirement to retain the MMU and the Board's responsibility to independently oversee and review the MMU's performance.**
- **Stakeholder input from Market Participants regarding the MMU's performance will assist the NYISO Board in its assessment of the MMU's performance.**

Process for Market Participant Input

- This year, the NYISO proposes to accelerate and modify this performance review to better align with the MMU Sector meetings and the release of the Annual State of the Market Report.
- All Market Participant written comments will be treated as confidential to protect commercially sensitive matters.
- NYISO staff will provide the Board with a summary of the stakeholder comments and verbatim copies of each of the comments received.

MMU Performance Metrics

- **The identified performance tracking metrics are presented to the Board in the subsequent year to assist in assessing the MMU's performance.**
 - Quality and timeliness of specific SOM Report deliverables
 - Quality and timeliness of generator reference level change reviews
 - Quality and number of mitigation analysis reviewed and commented
 - Quality and number of legal proceedings involving advice or testimony
 - Quality and number of Market design areas involving review or analysis
 - Quality and number of other significant market analyses or reports
 - Quality and timeliness of Cybersecurity compliance or implementation of enhancements

Timeline

- **June 7, 2024:**
 - Deadline to receive Stakeholder Feedback on MMU Performance.
 - Review period spans May 2023 – May 2024.

Comment Submission

- Stakeholder comments will be accepted until June 7, 2024.
- Written comments should be submitted to:
 - Joshua Boles at jboles@nyiso.com
 - Debbie Eckels at deckels@nyiso.com

Our Mission & Vision

Mission

Ensure power system reliability and competitive markets for New York in a clean energy future

Vision

Working together with stakeholders to build the cleanest, most reliable electric system in the nation

Appendix

Summary of Key Provisions of the MMU's Contract Statement of Work

- **Act as NYISO's Market monitoring Unit**
 - Perform all of the duties and functions, and assume all of the responsibilities assigned to the Market Monitoring Unit (MMU) in the NYISO's Market Monitoring Plan (the Plan), including, but not limited to:
 - Ensuring that the markets administered by the NYISO function efficiently and appropriately.
 - Protecting consumers and Market Participants (MPs) by identifying Market Violations (as defined in Section 30.2 of the Plan), market design flaws and market power abuses.
 - Reviewing and reporting on the performance of the wholesale markets that the NYISO administers to the NYISO, the NYISO's Board, the NYISO's regulators, and Market Participants. Such reporting includes:
 - Producing annual and quarterly state of the market reports assessing the performance of the New York electrical markets; and
 - Regularly attending meetings with NYISO's stakeholders.

Summary of Key Provisions (Cont.)

- Evaluating existing and proposed market rules, tariff provisions and market design elements and recommend proposed rule and tariff changes to the NYISO, to the NYISO BOD, to the staffs of the FERC and PSC, and to MPs.
- Notifying FERC staff and, where permitted, NYISO of instances in which the MMU has identified behavior that may require investigation, or has identified a perceived market design flaw that could be effectively remedied by rule or tariff changes.
- Responding to information and data requests from the FERC and other regulatory agencies.
- Performing the responsibilities that are consolidated in Section 4.6 of the Plan from other provisions of NYISO's tariffs.

Summary of Key Provisions (Cont.)

- **Advise the NYISO's Board of Directors**
 - Attend Board meetings on a quarterly basis, or as requested by the Board.
- **Advise the NYISO's Market Mitigation and Analysis Department (MMA) on market monitoring functions, including the following:**
 - Provide advice on the development and maintenance of reference levels, going forward costs, and retrospective mitigation;
 - Review NYISO's application of prospective mitigation.

Summary of Key Provisions (Cont.)

■ Market Design Review and Support

- Review and advise NYISO on market design initiatives including: (i) market rule changes, (ii) new functionalities for various NYISO departments, and (iii) related regulatory proceedings. The MMU examines and evaluates market design proposals to offer constructive input, raise precautionary issues and identify potential efficiencies or inefficiencies.

■ Regulatory Support

- Advise NYISO regarding proposed tariff changes related to market rule design and function. Related activities include (i) attending and reporting on same at Board and/or Stakeholder meetings, (ii) consultation with FERC and state regulators, and (iii) preparing affidavits to accompany NYISO filings.

■ Compliance with MMU Ethics Standards

- Potomac Economics is required to comply with the MMU Ethics Standards set forth in the Plan.
