

Summary of Modification Requests Deemed Non-Material

Project Queue#	Project Name	Contemplated Change
396	Baron Winds	Changing COD from 12/24 to 12/26
683	KCE NY 2	Change in Milestone dates including: In service from 11/10/23 to 5/1/27 Initial Synchronization from 11/15/23 to 5/15/27 Commercial Operation from 12/31/23 to 6/1/27
899	Scriba-Volney Series Reactor	Change COD from 3/24 to 3/26
1443	Vineyard Mid-Atlantic 2	Updated parameters for the project's feeders from the offshore substation to the onshore substation and from the onshore substation to the POI
N/A	Idlewild Project	Con Edison will construct a new 138 kV load serving substation in eastern Queens - Eastern Queens 138 kV - to provide supply to a new Idlewild 27 kV Distribution Area Substation to meet growing demand in Queens. The new Idlewild 27kV Distribution Area Substation will not serve new load; the load to be supplied by Idlewild will be transferred out of an existing Jamaica 27 kV Distribution Area Substation (which is supplied by Jamaica 138 kV substation - an existing substation that will connect to Eastern Queens 138 kV)
