

October 2019 Balance-of-Period Auction – Update to Secured 115 kV Facilities

The 115 kV facilities shown in the table below, which were secured in all prior 2019 Summer Capability Period Balance-of-Period Auctions, will *not* be secured in the October 2019 Balance-of-Period Auction.

For additional information, please see the presentation entitled “[Update on Facilities Secured in the Market Models](#)” from the September 10, 2019 joint meeting of the Market Issues, Installed Capacity, Price Responsive Load, and Electric System Planning Working Groups.
