

2020 NYISO VOLTAGE SUPPORT SERVICE RATES

Payments to Suppliers: Market Administration & Control Area Service Tariff Schedule 2

Per Rate Schedule 2, Section 2(a) of the NYISO Market Services Tariff, all providers of Voltage Support Service will be compensated at the rate of \$2,853.50 per MVA_r per year.

Charges to Customers: Open Access Transmission Service Tariff Schedule 2

Per Rate Schedule 2, section 2.1 of the NYISO Open Access Transmission Service Tariff, the Voltage Support Service Rate charged to Transmission Customers and Load-Serving Entities is to be computed by dividing the anticipated annual cost of providing Voltage Support Service, plus-or-minus any under-/over-collections from the previous year, by the annual estimated NYISO energy withdrawal. The estimated cost of providing Voltage Support Service in 2020 is \$70.7M, including \$0.00 in VSS LOC payments. There was an under-collection in 2019 Voltage Support Service of \$3,436,333.02. The NYISO estimates 2020 energy withdrawals to be 154,300,000 MWh. Applying the Tariff formula results in the \$0.48 per MWh rate.

A. Projected 2020 NYISO Voltage Support Payments to Generators	\$ 70,681,594.49
B. Projected 2020 NYISO Voltage Support Payments to non-generator VAR suppliers	\$ 407,108.85
C. Projected 2020 VSS LOC Payments	\$ -
D. 2019 Under-collection of VSS Payments (Estimate)	<u>\$ 3,436,333.02</u>
E. Total 2020 NYISO VSS Payments (A+B+C+D)	\$ 74,525,036.36
F. Forecasted MWh Volumes	154,300,000
OATT Rate Schedule 2 Charge (\$/MWh) {E/F}	\$ 0.48
