
NYISO Business Issues Committee Meeting Minutes
August 7, 2019
10:00 a.m. – 10:20 a.m.

1. Introductions, Meeting Objectives, and Chairman's Report

Mr. Aaron Breidenbaugh (Consumer Power Advocates) called the meeting to order at 10:00 a.m. by welcoming the members of the BIC. The members of the BIC identified themselves and attendance was recorded. A quorum was determined.

2. Market Operations Report and Broader Regional Markets Report

Mr. Robb Pike (NYISO) stated that due to the early timing of the meeting within the month, the Market Performance Highlights were not yet available for review. It was further noted that the Market Operations Report would be posted as part of the meeting material once available.

Mr. Pike reviewed the Broader Regional Markets Report included with the meeting material. There were no questions or comments.

3. External SRE Proposal Manual Changes

Ms. Amanda Carney (NYISO) reviewed the presentation included with the meeting material.

Mr. Howard Fromer (PSEG) asked for clarification regarding the proposed changes within Section 6.5 of the Transmission and Dispatch Operations Manual related to the notice requirements to external capacity suppliers. Ms. Carney clarified that the proposed revisions do not alter the existing notice requirements for external resources, instead the revisions include a hyperlink to an alternative location from which such notices can be obtained.

Mr. Jim D'Andrea (Helix Ravenswood) requested confirmation that the proposed manual revisions are consistent with the applicable tariff requirements. Ms. Carney stated that the proposed manual revisions are consistent with the applicable tariff provisions related to the performance requirements of external capacity suppliers in response to a Supplemental Resource Evaluation (SRE) request.

Motion #1:

The Business Issues Committee ("BIC") hereby approves the revisions to the Installed Capacity Manual and Transmission and Dispatch Operations Manual as presented and discussed at the BIC meeting on August 7th, 2019; provided, however, that approval of the proposed revisions is contingent on acceptance of the proposal to implement new requirements for External Installed Capacity Suppliers in responding to a Supplemental Resource Evaluation, and the associated penalty, by the Federal Energy Regulatory Commission (FERC Docket No. ER19-2104-000).

Motion passed unanimously with abstentions.

4. Working Group Updates

- Billing and Accounting and Credit Working Group: The group has not met since the last BIC meeting.

- Installed Capacity Working Group: The group has met three times since the last BIC meeting, including joint meetings with ESPWG, MIWG and/or PRLWG. On July 24, 2019, the group met and reviewed a proposal for revising the availability calculation methodologies for capacity supply resources. The group met on August 2, 2019

and reviewed a presentation by Analysis Group regarding preliminary results from the ongoing fuel and energy security assessment, and a proposal regarding potential revisions to the types of permissible contracts allowed as part of the competitive entry exemption from the buyer-side mitigation rules. The group met on August 6, 2019 and reviewed potential improvements to the Class Year Study and interconnection processes.
