

Dividing Services Tariff Section 23.4.5 into Subsections

Joy Zimmerman

Lead Regulatory Affairs Specialist

TPAS/ESPWG/ICAPWG

November 1, 2019,
NYISO, Rensselaer, NY

No Numbering or Language to Change

- Filed MST Section 23.4.5 is currently ~ 100 pages
- We will break the section into 23 subsections (structure shown on following slides)
- Subsections will be introduced with the NYISO's upcoming filings to modify MST Section 23.4.5 currently anticipated in December 2019
- We propose to create this structure in the online master tariff prior to filing

The screenshot displays the NYISO website interface. At the top right, there are navigation links for "About Us", "MARKETS", and "LIBRARY". The main navigation bar includes "TARIFFS" and "FILINGS". The "TARIFFS" dropdown menu is open, showing options for "OATT", "MST", and "Agreements". The "MST" option is selected, leading to a submenu with "PDF-Full Tariff", "PDF-Select Sections", and "Quick View". Below the menu, a list of filings is visible, including "NYISO MST" and various subsections such as "NYISO MST, 23.2 MST Att H Conduct Warranting" and "NYISO MST, 23.4-23.4.4 MST Att H Mitigation Me".

23.4.5 - Eight “Level 4” Subsections

- Most are 1-5 pages
- 23.4.5.7 is about 80 of the 100 pages
